Bio/Data Corporation Announces U.S. Distribution Partnership with Alpha Laboratories (UK)

April 2026; Horsham, PA: Bio/Data Corporation is pleased to announce a strategic partnership with Alpha Laboratories, based in Eastleigh, United Kingdom. Through this collaboration, Bio/Data will serve as the official U.S. distributor of Alpha Laboratories' trusted range of general laboratory products, further expanding its portfolio of high-quality solutions for clinical and research laboratories.

Alpha Laboratories is widely recognized for supplying high-quality laboratory consumables and sample handling solutions to clinical and research laboratories worldwide. Through this partnership, Bio/Data is expanding its portfolio to include essential laboratory products, such as transfer pipettes (Pastettes®), UN3373-compliant mailing envelopes for the safe transport of biological samples, and SpeciSafe® sample transport systems for the secure containment and transport of blood tubes, along with a wide range of additional laboratory products designed to support diverse laboratory needs. Alpha Laboratories' transport solutions align with UN3373 regulations and P650 packaging instructions, helping laboratories maintain compliance for the transport of Category B biological substances.

This partnership reinforces Bio/Data Corporation's commitment to providing a broad portfolio of laboratory solutions and strengthens its position as a trusted partner to laboratories across the United States.

Bio/Data Corporation is a renowned industry leader, distinguished for its exceptional expertise in the manufacturing and distribution of cutting-edge Platelet Aggregometers, Platelet Function Centrifuges, Platelet Aggregation Reagents, Consumables, and Accessories. Bio/Data Corporation is an ISO 13485 Registered Company. For more information, please visit our website at www.biodatacorp.com.
